"I left Preterm with relief, compared to the confusion and despair I felt when I found out I was pregnant. I know I made the right decision, with the support of family and friends. I feel privileged to live in a society that (at the moment) allows a woman to choose not only what to do with her body, but her life."

"Preterm is giving me a chance to be a better mother to my nine-month-old son. I have a chance to start over and do what's right."
